What is a nigger anyway? Whom ever create it, must be the original one in every way.

The original imitation nigger is really more mentally ill, then the nigger he created and will be incapacitated with same mind set that's seal.

As a matter of fact niggers today suffered from mental disease, the main benefactor is eating a diet like the original nigger and your ankestors are highly displease.

Whom ever control the mind; has power over the individual behind.

So who we think we are, is not who we really and truly are.

Disconnected from the inner self, you disconnected from the universe and everything else.

So who do we act like and what do we really know or are we being mislead by the enemy our foe.

What does it say about a people who have lost their way. Can a divine intervention reawaken the ones who have stray so far away.

Can we undo who we think we have become or have we finally giving up on ourselves; so stick a fork in us because we are done.

Do we hate the imitation nigger, that unminded creator. Should we just ignore them completely to focus on our own resurrection, not wasting any time in being a hater.

The imitation nigger is trying to be like the melaninated you. But will always fall short, they can never be a melaninated one, that fact is so true.

So embrace the inner self, so humble and true. Stop being a nigger, quit playing the imitation nigger fool.
