There has been much confusion regarding the word Jew or Jews and the origin of the name and its peoples. These links below are for those whom want to know more about the Jewish questions. The links are to “inlighten” (Illumination) those people as oppose to enlighten them to the full knowledge. Please be aware that some of these link may be disable or no longer working. I would advise to perform a key word search on the name Khazars for more in depth information.
