

The Journey to Freedom
by
YahZion EL

The journey to freedom is a road least travel by those who do not desire freedom; whom are happy and content with being a slave in someone else kingdom.

The journey to freedom is not for those who are waiting for someone else to do the work; God, Elohim, Allah, Yahshua or the Devil cannot help until you take the responsibility to do this work.

The journey to freedom is easy for those whom have studied our story, science, math, law, and philosophy lesson; for to take and reclaim your nationality, birthright and sovereignty honoring your fore-mother & fore-father is a true confession.

The journey to freedom is not for the faint in heart; it will take perseverance and dedication to your objective which will never part.

The journey to freedom is your free will choice to become free or a slave; the choice is yours only and it will determine whether you have courage to be brave.

The journey to freedom is a human nature right for all humanity; no one has the power to rule over others and their land for this is pure insanity.

The journey to freedom requires no weapons, if it's carry out in a sovereign legally objective; for birthright is key to land and nationality & sovereign status is the ultimate collective.

The journey to freedom; is all about the overall trust in us, the total objective is Love, Truth, Peace & Justice.
