

The Sleeper Must Awaken
by
YahZion EL

The sleeper must awaken; its way past the year 2,000; how long will it take for the Moors to give up their futile life of sin.

The sleeper must awaken; do you not know, that you are a clean & pure nation; the world has been anticipating the holy resurrection Allah (All Law) ISLAM (I Self Law Am Master) creation.

The sleeper must awaken; you'll have been told many lies; the slave master religion which you have kept alive cannot serve you anymore and must die.

The sleeper must awaken; look at your children of today; do you want them to live out the lie; that you refuse to destroy or put away.

The sleeper must awaken; its time for the old generation; whom have the knowledge; to pass this valuable information on to free the next new generation.

The sleeper must awaken; this life is no longer a dream or a nightmare; this life is about restoring a nation who really matter & care.

The sleeper must awaken; its time to "Wake Up & Live" and forgo all that the slave system has taught you. Its time to learn what your fore-mother & fore-father have gave to the world and to you.

The sleeper must awaken; the first step out of a long slumber is to fortify self. You must study, study, study to encapsulate the totality of your inner self.

The sleeper must awaken; find and get on the journey to freedom to meet those like you. Who were once sleeper and dark within to the marvelous light that shines deep within you.

The sleeper must awaken; its all about the overall trust in us, the total objective is Love, Truth, Peace & Justice.
